## INTERNATIONAL SEARCH REPORT

International application No.

PCT/US04/36565

N- II	Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
OX NO. II	Observations where certain claims were found unsended of the control of the following reasons: onal search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
. 🖂	Claims Nos.: 2-10 because they relate to subject matter not required to be searched by this Authority, namely: Please See Continuation Sheet
2. 🗌	Claims Nos.: because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
з. 🗌	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box No. II	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
	ational Searching Authority found multiple inventions in this international application, as follows:
1.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.  As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.  As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
2.	searchable claims.  As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.

Form PCT/ISA/210 (continuation of first sheet(2)) (January 2004)

INTERNATIONAL SEARCH REPORT  International application No. PCT/US04/36565  Box II Observations where certain claims were found unsearchable 1. because they relate to subject matter not required be searched by this Authority, namely: Claims 2-10 are "use" claims, which appear to be directed to neither a "process" nor a "machine," but rather embraces or overlaps to different statutory classes of invention set forth in 35 U.S.C. 101 which is drafted so as to set forth the statutory classes of invention of the statutory classes of invention and the statutory classes of invention of the statutory classes of invention set forth in 35 U.S.C. 101 which is drafted so as to set forth the statutory classes of invention of the statutory classes of inventio
